

Pinnacle Select Lift & Slide Patio Doors

Features and Benefits

- Available in aluminum exterior / wood interior, or aluminum exterior / aluminum interior
- Thermally broken aluminum panels and frames
- Stacking lift & slide system aligns all panels with the stationary panel when in the fully open position; all panels are visible
- Pocket lift & slide system incorporates a pocket into the wall cavity to conceal all panels when they are in the fully open position
- Door jamb widths vary depending on the number of panels in the lift & slide door system and the handing
- Up to five panels in any one direction and 10 panels for a bi-parting lift & slide door
- 2-3/8" thick panel construction
- Narrow 3-3/16" wide panels reveal more glass for beautiful views
- Standard and recessed sill options
- Two 2-wheel carriages engineered to provide maximum support
- Nylon rollers combined with stainless steel ball bearings provide effortless operation
- Multi-point locking system
- Lead panel on pocket doors come with a finger pull

Lift & Slide Alum Ext. Wood Int. Panel
