**Windsor Products Used:**  
Next Dimension Pro single hung windows  
and sliding patio doors

### Project Description

Campus Suites is a premier college housing development company that builds lifestyle neighborhoods. These communities consist of approximately 140-264 spacious apartments that include full amenity packages within a professionally managed organization.

By focusing on the total resident experience, Campus Suites provides an environment that maximizes a student's experience to make college more than just going to class. They provide a community of comfortable homes in convenient locations. In addition, residents benefit from modern technology, safe and well-lit grounds, and security systems throughout.

### Unique Requirements/Solutions

The builder needed a large number of quality vinyl windows and doors within a very short timeframe. Windsor was able to meet their demand for quality as well as their delivery date.

### Comments From The Builder

Shiel Sexton, the general contractor on the project, stated, "Windsor's vinyl windows give us everything we need for these large projects. They provide a quality product, dependable performance, all at a fair price. We couldn't be more pleased."
