Meridian, Idaho  
[www.precisioncraft.com](http://www.precisioncraft.com)

**Windsor Products Used:**  
Pinnacle clad double hung, single hung,  
awning and direct set windows

### Project Description

This home was custom-designed for a unique couple. They reside in Texas, but wanted a second home in the Pacific Northwest. The homeowners are hardworking and practical, and though they were building their dream home, still needed to be mindful of their budget. PrecisionCraft recommended Windsor's Pinnacle clad windows because of the high quality the homeowners desired, but also the great value Pinnacle would provide. The homeowners compared various window products in the PrecisionCraft showroom and decided that Windsor's Pinnacle clad product was the perfect solution to meet their needs. They loved the robust appearance, structural stability and energy performance the Windsor products offered. In addition, the alder wood interiors and black hardware gave them the look they were striving to achieve.

### Unique Requirements/Solutions

The windows for this project had a special set of needs because the arched windows had to fit precisely into the pre-manufactured panels. Since the main floor and basement were framed in a conventional manner and the top floor was pre-fabricated, the openings were different dimensions. Therefore, the jamb widths for the various windows had to be custom entered for each opening.

## Comments From The Homeowners

The owners were extremely pleased with the end result.  
"Nice choice on the Windsor windows. They are absolutely gorgeous!"
