

Pinnacle Multi-slide Patio Door

Features and Benefits

- Stacking and pocket configurations
 - Stacking multi-slide door systems stack all panels in line with the stack stationary panel when the panels are in the fully-open position; in the stacking configuration, all panels are still visible
 - Pocketed multi-slide door systems incorporate a pocket in the wall cavity to conceal all panels when they are in the fully-open position; in the pocketed configuration, all panels are hidden in the pocket
- Single-direction handing; all panels operate either all-left or all-right
- Door jamb widths vary depending on the number of panels in the multi-slide system
- One panel (pocket only) to eight panel configurations with maximum 20'0" frame width
- Main frame head jamb and sill use dark bronze anodized aluminum extrusions with powder paint color-matched frame nosing and pocket covers
- Folding aluminum nailing fins applied
- Pinnacle 1-3/4" thick sliding patio door panels
- Heavy-duty interlock improves air and structural performance
- Panels slide on two tandem, heavy-duty, end-adjustable ball bearing rollers for years of smooth, trouble-free operation
- Standard Pinnacle patio door IG options available
- Standard Pinnacle patio door grille options available

Sizes

- Standard heights
 - French panels: 6'8", 6'10", 8'0", 9'0", 10'0"

All applications using multi-slide door systems require outdoor overhangs equal to or greater than the height of the multi-slide door.

When using the staggered sill option, a mop zone on the interior of the door is highly recommended, as this application can experience water infiltration under certain conditions.
