### Project Description

This contemporary home is set in the rolling hills of Brentwood, TN and was brought to life by Jack Herr Design Associates Inc. Working closely with the building professionals at Hidden Valley Homes, LLC, this home uses an amazing combination of Windsor Pinnacle clad products to maximize the views overlooking this spacious property. Swinging patio doors that run along the entire length of the poolside living area created the perfect indoor/outdoor entertaining space while also accentuating the breathtaking scenery. The use of Matte Black exterior cladding on all windows and patio doors was a perfect complement to this contemporary architecture style.

### Project Features

Both the homeowner and builder wanted to maximize the views of the property and outdoor entertainment space, so opting for oversized contemporary patio doors from Windsor Windows & Doors accomplished all design goals.

## Comments from Project Associates

"Builders FirstSource along with Windsor Windows & Doors provided an outstanding combination of excellent products, a competitive price and support after the sale. The Matte Black exterior finish complemented this contemporary design very well. We were thrilled with the results and look forward to using Windsor again on our next project."
