WINDSOR PRODUCTS USED:

Pinnacle Wood Clad

Project Description

The home has all the features of a transitional design, including arched windows and hinged French doors that swing out to the outdoor living space. Windsor Windows & Doors' Pinnacle series was the ideal product to capture the aesthetic and design.

Unique Requirements and Solutions

With their west facing lot opening to the beautiful desert landscape, the window and door package had to allow for seamless transition from the interior to exterior living spaces. There are three, 15-ft narrow sliding doors that boast smooth operation and uninterrupted, awe-inspiring views.

Comments from Project Associates

From the beginning stages, this project was unique and special. We knew the homeowner had a remarkable vision in mind when they came into our showroom. Windsor's customizable product

(continued on next page)

offering allowed for the perfect alignment of the homeowner's vision of harmonizing flawlessly to the overall architecture of the home. Windsor and builder Mike Oliver have had a longstanding relationship and have worked on many custom homes together.
