DISTRIBUTOR:

Michigan Window & Door
10760 Hi Tech Drive
Whitmore Lake, MI 48189

WINDSOR PRODUCTS USED:

Pinnacle Select Windows & Doors with
simulated divided lite

Project Description

New build 4,900 sq. ft. home featuring transitional coastal interior with beautiful views of Wing Lake. Inspired by oceanside homes in New England, the homeowners selected black cedar shake for this classic, timeless look. To maintain a simplistic, classic look, the homeowners chose only 4 pane windows and doors, which takes advantage of the lake views with less distraction to the eye. They chose large windows and doors to bring in the outdoors as much as they could.

Project Features

This project required larger than standard casement windows, as well as tall front elevation door units with matching fixed sidelites. Round windows and radius windows installed in the attic were another unique addition.

Comments from Project Associates

I've been building high-end renovations and new homes in the Detroit Metro area for the past 25 years. I've worked with almost every manufacturer of quality windows that there are. I can say that Windsor is one of the best built window and door products that I've come across.
