Operating casement and awning values are calculated with 3.1mm glass and fixed units, direct set and radius values are calculated with 3.9mm glass in the IG unit.

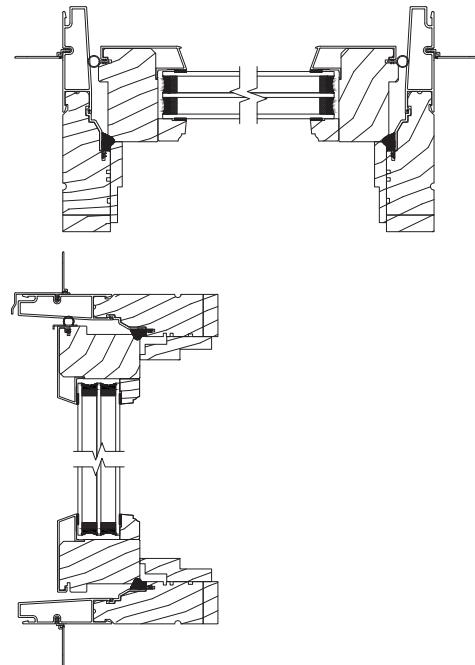

- Select windows are constructed with 2-5/16" wide stiles and rails that add structural stability and provide a more massive architectural appearance
- A robust 2-7/16" thick sash adds dimension and strength and will accommodate a 1-1/4" triple IG unit
- Double mortise and tenon sash joints are fastened with screws for strength and stability
- LoE, LoE obscure, LoE reed, LoE rain, LoE glue chip and LoE satin etch glass options are available
- Size limitations on Select windows with triple IG:
 - Casement operating and push-out: up to 3678 frame size
 - Awning: up to 4836 frame size
 - Casement picture: up to 7278 frame size
- Select windows ordered with triple IG are available with the same options and features as standard Select products
- Triple IG is also available in Pinnacle clad direct set and radius products
