

WINDSOR
WINDOWS & DOORS

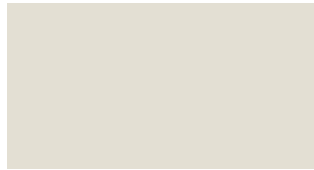

Color can work wonders.

Windsor's in-house paint line has expanded our Standard Color and Feature Color palettes to over 50 shades, or you can make it truly unique with custom color matching. Spectacular color shines through season after season thanks to the highly durable 2604 finish that now comes standard, or upgrade to 2605 for projects that require an even stronger defense against the elements. **Discover new possibilities with Windsor's paint program.**

Create your own look.

Windsor's aluminum clad paint program offers long life, with spectacular looks and superior chalk and fade resistance, regardless of location. Factory-applied and oven-cured Super Durable Polyester TGIC and Fluoroset® resin-based paints block the sun's damaging ultraviolet rays and repel general air pollution. Finishes will not whiten or pit when exposed to dew, fog, rain or acid rain. Our compliant paint system will protect your projects against harmful elements that exist in many environments. Discover new possibilities with Windsor's paint program.

- AAMA 2605 finish backed by a 30-year² warranty

¹For applications within one mile of the coast, AAMA 2604 finish will not be under warranty. ²For applications within one mile of the coast, AAMA 2605 finish will carry a 10-year warranty. For specific warranty details, please refer to the complete warranty document posted on our website, www.windsorwindows.com.

Care & Cleaning

Windsor's factory-applied, heat-cured, painted finishes are durable and colorfast. The Super Durable Polyester TGIC and Fluoroset® based products meet AAMA 2604 and 2605 specifications and will retain their color and gloss level for many years. Occasional cleaning of the painted finish will help maintain its original beauty. When selecting a cleaning solution, use mild soap solutions and avoid using strong acid or alkali cleaners, as they may damage the finish.
