

Pinnacle Select **Double-Hung**

Built on a legacy of proven performance, designed for the future.

Pinnacle Select **Double-Hung**

Refined by Design.

The most beautiful details are often the ones that disappear.

Pinnacle Select was engineered to reduce visual distractions, allowing natural wood and clean architectural lines to take center stage. Concealed components, balanced proportions and carefully considered sightlines create a window that feels custom-crafted from every angle.

A cleaner expression of craftsmanship.

Concealed jambliner hidden behind the wood interior and color-matched exterior cladding

- No visible interior fasteners
- Concealed weatherstripping
- Low-profile sill and interior sill stop
- Narrow 2-inch check rail sightlines
- Even sightlines across companion products for a cohesive appearance throughout the home

Double Hung-Exterior View

Naturally beautiful.

Available in Clear Select Pine, Douglas Fir or Natural Alder, ready to showcase the character of real wood with your choice of paint or stain.

Refined by Engineering.

Exceptional performance begins long before a window is installed. The Pinnacle Select Double Hung delivers airtight performance that stands among the best in its class.

Pinnacle Select incorporates structural enhancements throughout the frame and sash, delivering outstanding strength, smooth operation and lasting durability without sacrificing its refined appearance.

Select Double Hung companion products:

- Pinnacle Select Double Hung Picture
- Pinnacle Select Double Hung Transom
- Pinnacle Select Glide-By

Glide-By Interior View

Engineered with Intention.

Integrated Check Rail Interlock

Creates a stronger connection between the sashes for enhanced structural performance.

Silicone-Injected Corner Keys

Reinforce both frame and sash corners for increased strength and long-term stability.

Constant Force Balances

Provide remarkably smooth, consistent operation across every available size.

Integrated Tilt-Lock System

Makes cleaning simple while maintaining clean, uninterrupted lines.

Performance that's built in.

Pinnacle Select achieves higher structural ratings without requiring a performance upgrade.

Double Hung-Interior Open

Double Hung-Interior View

Refined Around Your Vision.

A beautiful window should complement the architecture —not compete with it.

Pinnacle Select offers thoughtfully curated options that make it easy to create a cohesive design throughout the home.

Options

Glass Options

Standard $\frac{3}{4}$ -inch insulated glazing, with optional $1\frac{1}{4}$ -inch triple-pane insulated glass for enhanced thermal performance.

Premium Construction

Double-glazed sash construction combines structural glazing on the wood side with tape-and-silicone glazing on the clad side for exceptional durability.

Hardware

Choose from hand pulls or finger pulls in eight distinctive finishes to complement every design aesthetic.

Designed to Work Together

Pinnacle Select pairs seamlessly with companion products—including picture windows and transoms—for consistent sightlines and beautifully unified elevations.

Refined in every detail. Built for every generation.

From its carefully crafted wood interior to its concealed engineering and exceptional structural performance, Pinnacle Select redefines what a wood clad double-hung window can be.
