

Pinnacle Select Double Hung & Glide-By

Features and Benefits

- Constant force balance systems
- No visible fasteners on the interior for no nail holes and a clean, consistent finish
- Keyed and silicone-injected sash and frame corners improve strength and long-term stability
- Integrated tilt lock system for an easy-tilt sash
- Lift handle options for added functionality and design freedom
- FlexScreen® is hidden, simple and easy to install
- 1 ¼" triple IG option, meets Energy Star in four climates

Double Hung

- Constant force balance system provides smooth, consistent operation
- 2" check rail sightlines
- Impressive airtightness, a standout in its field

Glazing

- 3/4" double pane insulated glass, standard
- Triple pane option meets Energy Star requirements in four climates
- Sash wood and cladding is sandwiched around the glass
 - Structural sealant on the interior
 - Tape and silicone on the exterior

Pinnacle Select Glide-By

- Precision rollers under the sash provide smooth operation
- Concealed weeping system delivers outstanding water performance

Sizes

- Available in standard and custom sizes within published product limits.
- PG-30: 7260 Standard Unit; PG-30: 10860 End Vent Unit
- PG-50 on sizes 4189 and smaller; PG-35 above 4189 up to 4797

Companion Products

- Pinnacle Select Double Hung Picture
- Pinnacle Select Double Hung Transom
- Aligned sightlines enhance architectural appeal and design consistency in mulled combinations

Finishes

- Extruded aluminum cladding available in all Windsor clad colors
- Interior wood available in Windsor paint and stain options
- Standard wood species: Clear Select Pine; Fir and Alder, TBD

Hardware

- Finishes: Bright Brass, Oil Rubbed Bronze, Satin Nickel, Champagne, Faux Bronze, Bronze, Black and White
- Integrated tilt-lock system combines a centered lock with concealed tilt latches

- After the sash is unlocked, pressing the lock further through rotation will retract the latches, allowing the sash to be unlocked and tilted using one hand.
- Glide-By uses the same lock design without retractable tilt latches

Lift Handles

- Factory prepped, field-applied option
- Finishes: Bright Brass, Oil Rubbed Bronze, Satin Nickel, Champagne, Faux Bronze, Black, White
